Environmental information — every line on this note carries its delivered weight (kg) and embodied carbon (kgCO2e, A1–A3 cradle-to-gate, indicative factors for demonstration). Total delivered weight: **859.4 kg** · total embodied carbon: **532.6 kgCO2e**. Both values are inside the QR code, so waste returns and carbon reporting need no retyping and no separate lookup.

All goods supplied subject to the terms and conditions in force at the time.
